Berlin - Friday, December 14, 1900:

*In front of a crowded room of scientists,
Dr. Max Planck made a suggestion.
It was a simple idea, but it made
the entire room gasp! It changed the world...
Even Albert Einstein was blown away!*

**Discover how the Breakthrough of
Einstein's Best Friend
Will Turn You into a Success Magnet!
It's easy to do... Once you learn my secret!**

Dear Jeff:

I must confess... I couldn't take my eyes off him.

Last April in Key West, I was relaxing at the pool, sipping pina colodas with my husband. Yet I was completely distracted by another man.

What was it about him that was so intriguing?

He wasn't that attractive... a burly man with thick, coarse hair. He wasn't sexy... thankfully his Tommy Bahama shirt stayed on.

There he was, working away on his laptop - a virtual office at the pool. On top of his stack of papers was a book, **"Quantum Success."**

And he was successful! It was obvious. You could tell by the way he carried himself.

I was curious... So with my husband's OK, I changed chairs so I could talk with him. I wanted to find out more about him.

Like, how did he design his life so he can sit by the pool without missing a beat on opportunities?

This is what I learned on that sunny Tuesday.

His name was James. He was an international investor. Here he was, sitting poolside with a drink in one hand, emailing files to computers across the globe. His phone calls spoke of pipelines in Middle Eastern countries... talk of Israel... meetings with Turkish diplomats. It was impressive... and I don't impress easily.

Now, if I had seen this man on the street, or in line at Starbucks, I may not have been so impressed. In fact, the word "schlub" comes to mind when I picture him. So how did this once average Joe become a successful international man of mystery?

So, how did he do it?

When I asked him, he told me to buy the book.

What Made Them Gasp Can Make You Rich!

Over a hundred years ago, on that chilly day in Berlin, physicist Max Planck shared a fresh idea with the world. He said that everything - from the stuff we own to the air we breathe - is made up of tiny bits of energy. He called these grains of energy "quantum." The study of Quantum Law was born. And it's the basis for all things - even success!

A century later, my friend at the pool shared an idea that changed my world. He told me about the law of Quantum Success... that there is a science to being successful. Why else would one man prosper while another man starves?

He told me that once you discover the laws of quantum success and use them well, your life will quickly change. "It's as if you become a success magnet," he said.

Step one: Learn the laws...

I've always been a student of success. But after my encounter with James, I had to find out more. Learning the laws became my passion.

To help me with my quest, a friend recommended "The Secret." I bought the book. I watched the movie, too.

Watching "The Secret" was like eating cotton candy. Sweet... fluffy... beautifully spun... but not much there. No, I needed something more.

So, I went back to the classics on success and prosperity. Books by Napoleon Hill, Denis Waitley, Norman Vincent Peale, Robert Allen, and Tony Robbins... the masters of inspiration and achievement. Each one touched on some aspect of success. Some even referred to positive energy, and the opportunities flowing all around us. But they always seemed to fall short. Something was still missing.

Finally, I remembered the book James suggested.

My mystery man ended up giving me a life-changing gift. He introduced me to the book that changed my life. It's called **"Quantum Success."**

In a moment, I'll explain how you can receive this life-changing information, **at no cost to you.** But before I do, let me explain how this is a book like no other.

"It's like 'The Secret' on steroids!"

I've never hit the jackpot, but now I know how it feels.

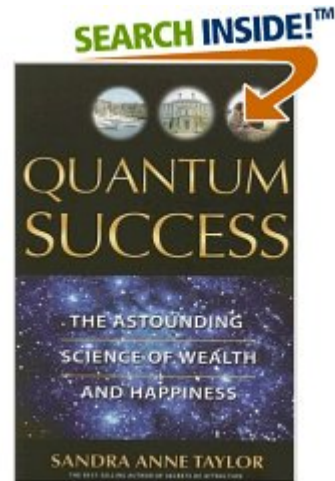

Fact is, I would have paid hundreds, even thousands, for the information I found in **"Quantum Success: The Astonishing Science of Wealth and Happiness,"** by Sandra Anne Taylor. But for just \$14.95 at my corner bookstore, I bought the keys to unlock the universe!

Even though I found it in the "self help" section, I've never had a book so dramatically improve my business - and my cash flow - more than this one.

On the cover, reviewer Wayne Dyer encourages the reader to "pay attention!" to what's inside.

Pay attention indeed!

Armed with the laws of Quantum Physics, Taylor lays out the framework of successful living - how you can design your life around the basic universal laws. No matter how large your dreams, the creative universe can accommodate you, once you connect to the flow.

Step by step, you'll examine your attitude and your ambitions - helping you tap into the prosperity that flows all around us.

**The Secret is Out...
And Quantum Success is In!**

Any amount of time spent on the material will change your life for the better. No doubt about it.

This book is so chock full of facts and information that you can hardly digest it all in a single sitting. You should study it... savor it. Time well spent.

As an added bonus, you also get exercises to stretch your mind around possibilities you never before could imagine. If you've ever "wanted it all," now you have the handbook to go out and grab hold.

This is powerful stuff.

What "Quantum Success" Can Do For You

Within the book's 251 pages, you'll discover techniques that will immediately improve your life. Things such as:

- How to lose weight and make more money - *at the same time!* (Page 7)
- Why poor people are so bitter, and wealthy people are so happy... and it has nothing to do with money! (page 58)
- Finding your own secret weapon and unlimited source of power... that's as easy as closing your eyes! (page 43)
- Mastering the TEE equation, to tap into even faster success. (page 15)
- How to harness the biochemistry of your thoughts and emotions to lock in on the destiny you desire. Neuropeptides rule! (page 77)
- How you gain more my letting go. (page 24)
- How desperation and urgency are toxic to success. (page 25)
- Learn the science (without the fluff) behind positive thinking. (page 39)
- How your goals could be working against you! Even their wording can make the difference between success and failure. (pages 95-101)
- Learn how to turbo-charge your destiny through this simple technique. (pages 124-126)

And we haven't even gotten to the juicy stuff!

- Understanding your destiny
- Charting your course effectively
- The importance of "Vitamin E"
- Quantum charisma

And much, much more!

Maybe you're tempted by the notion of creating a life of wealth and success - exactly as you've always wanted your life to be. If so, "**Quantum Success**" is like having a map to your own private gold mine.

But perhaps you're wary because other books didn't live up to their hype. You know, the ones that take a paragraph of ideas and stretch them out into 130 redundant pages. Fear not. This is the real deal.

Honestly, if I had my choice between "Think and Grow Rich," "The Power of Positive Thinking" and "**Quantum Success**," I'd choose the latter... hands down.

Although my personal library now holds hundreds of books on business, investment, wealth building and success, it's the newest addition to the collection that already shows the most wear - "**Quantum Success**."

So, what are you waiting for? **Take a little break from your day, to invest in your life!**

Today, your small investment of \$14.95 for this amazing book - jam-packed with wealth-building strategies - may be the best return you'll see on your money all year.

How well does it work? Glad you asked.

Now, keep in mind that I bought **Quantum Success** only 9 short weeks ago. But since then:

- I've lost 14 pounds without "dieting." And my husband has gone from 205 to 174! - He's back to his high school weight!
- We were able to buy an awesome black Mercedes, like I've always wanted. And we got it for a song!
- I always get a great parking space when I'm out and about - even my kids notice my change in luck!
- I've dramatically improved my writing.
- I was able to raise my rates without losing my clients.
- I just met my copywriting hero, Bob Bly, and he actually asked me to join his Web site as a preferred vendor - so he can refer people to me! (No need to pinch me - this is *not* a dream!)

When the Law Works for You

Most folks never realize that there is an easier way to success than plodding away at their current existence.

You just have to know where to look, and how to tap into the power of the laws that govern prosperity. While most people spend their days waiting for their big break, you can actually create your glorious destiny. In an instant, with just a small change in your personal energy, you can easily turn yourself into a success magnet!

How cool is that!

Remember James, at the pool in Key West? He had obviously tapped into the power of prosperity that is all around us. You, too, can gain access to unlimited power. It's available to us all, once we learn how to harness its secrets.

It's as easy as building a sand castle. But instead of sand, you'll learn how to use those tiny bits of energy to create the happiness you've always wanted.

Those secrets, explained in "**Quantum Success**," will quickly propel you into a more rewarding life. Take the fast-track to success beyond measure!

Success is easy with the right information. Splurge a little... Here's the link to Amazon.com.

PS: SPECIAL BONUS! Daily affirmations will help you connect with your happiness. Here's a sample affirmation for success that you can put to use for you right now:

**"Today's action creates tomorrow's results.
I choose to take action now."** (page 179)

(So, have you taken action yet? Don't wait another minute. It's time to stop dreaming and start doing. "Quantum Success" will show you how.)

PSS: Because I'm so committed to your success, allow me to make you an amazing offer!

My Special Offer:

I've never done this before. Just to show you how convinced I am that this information will change your life, I have a special offer for you. But you have to act fast.

Call me right now and I'll let you try a FREE COPY of **Quantum Success: The Astounding Science of Wealth and Happiness!** Yep, you heard me. Your own copy of the most powerful guide to success you may ever read. **FREE!**

Option 1: Call me and I'll send you the book. If you love it (and I know you will), we'll bill you only \$14.95, plus shipping.

Option 2: Here's where it gets interesting. I'm so convinced that you're going to love this book that *I'll pay you* if you dare return it. Once you get your free copy, if you don't like it, go ahead and send it back to me in the enclosed pre-paid envelope within 30 days, and **I'll pay you the \$14.95 at your request!** That's right. Send no money and receive the book to see for yourself. That's how confident I am that this information will change your life.

There! You have no excuses left. You have nothing left to lose.

This is a very special chance for you - I hope you take it. But my offer will dissipate on November 20th, 2007, so you have to act fast! Call me now at **330-777-2001.**
